In an increasingly
challenging world, do
you ask yourself...

**How compliant are
we really?**

**Are we spending our
money wisely?**

**How could we
improve?**

Have you ever wondered why some initiatives work wonders
whilst others fail?

Behavioural Change in a Challenging World

Sust-n Ltd are a specialists in Behavior Change, Audit and transformational waste management.

We have operated for many years in the NHS working with large, well known Trusts.

We have delivered stunning results by supporting and motivating staff and, in the process, changing the mindset of thousands of people within the NHS. In essence, we enable Trusts to :-

- 1) Control and Reduce Waste Management Costs
- 2) Be more Sustainable and Environmentally Friendly
- 3) Improve Compliance and Health & Safety

We partner with you to deliver success

The Key to Success is Focus

"Focus and Simplicity have always been my mantras. Simple can be harder than complex : you sometimes have to work hard to focus, to get your thinking clean, to make it simple. But, it's worth it in the end because once there, you can move mountains" Steve Jobs

What do our clients think?

"I wanted to drop you a quick email to say what a great team you have in Karen Hogg and Paula Parker.

They have been working tirelessly with myself and my team in moving forward how the dental hospital deal with its waste. Despite many obstacles put in our way from various sources, they have been fully supportive and have never at any point made demands or left us to manage the issues alone.

They are always professional, punctual and very communicative.

I am hoping we have now overcome the previous hurdles and together with them both we can move forward as a team! If we struggle, I am confident Karen and Paula will be there to support us and enthuse our teams!

Please can you pass on my gratitude and thanks for all their hard work and effort?

Many thanks

Kind regards

Jodie"
